FFP Project 123, LLC

Project No. 14509-000

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments,  
Motions to Intervene, and Competing Applications

On April 2, 2013, FFP Project 123, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the US Army Corps of Engineers' (Corps) Amory Lock & Dam on the Tennessee-Tombigbee Waterway near the town of Amory in Monroe County, Mississippi. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a 100-foot-long, 60-foot-wide forebay; (2) a 60-foot-long, 70-foot-wide powerhouse containing one generating unit with a total capacity of 1.5 megawatts; (3) a 700-foot-long, 60-foot-wide tailrace with a 300-foot-long retaining wall; (4) a 4.16/36.7 kilo-Volt (kV) substation; and (5) a 1.0-mile-long, 36.7kV transmission line. The proposed project would have an average annual generation of 7,100 megawatt-hours, and operate as directed by the Corps.
